Background

Perak Corporation Berhad (PCB) was established in 1991 with a paid-up capital of RM100 million and as at end of year 2018, the paid-up capital has been increased to RM237 million, and has been listed on the Main Board of Bursa Saham Malaysia since 2003. Perbadanan Kemajuan Negeri Perak is the main shareholder of the company with a 52.9% stake. The early activities of PCB were focused in the management of ports and logistics facilities and development of new towns. As the company charges forward, it has expanded to include regional development, hospitality & tourism and development of ports & logistics infrastructure.

PCB Development Sdn Bhd (PCBD) is one of PCB's main subsidiaries which had undertaken the development project of Bandar Meru Raya (BMR). The BMR project consists of the development of a fully integrated township located in Ipoh. BMR a fast-emerging township dubbed as the “New Heartbeat of Ipoh”, is PCB’s flagship for township development. Developed as Ipoh’s satellite metropolis, it is designed as the epitome of comprehensive and integrated destination for work, live, play and learn.

Covering an area of 3,000 acres, BMR’s ecosystem has components of various facilities like Government Precinct, tourist attractions and public amenities which include a central bus terminal that enhances intra and inter-state connectivity, a large-scale convention centre, international and national colleges and schools, a hypermarket, a public park, a world class animation theme park and 400 lots of commercial units to meet the needs of over 4,000 units of residential in the vicinity. BMR currently houses six government offices in an expanding Government Precinct. With the relocation of 12 more government agencies in the pipeline, BMR is set to be the main administrative centre for Perak Darul Ridzuan.

Home to a plethora of integrated businesses, Bandar Meru Raya will boost Perak's appeal as an investment destination of choice that offers varied prospects. Cognisant of its role, the company constantly seeks out avenues for development and growth to expand the property market in the state, both in terms of value and quantity. This paves the way for more commercial possibilities and opportunities and increases the stable of residential property. PCB and PCBD have a substantial landbank that would be made available for residential, commercial and industrial developments.

Realizing the prominence of Property Developments and sustainability to the socio-economic growth of the State of Perak, PCBD is seeking a Developer with the capacity and creativity to transform the land included in this RFP by following high development standards and presenting a commercially viable project for the area. It is anticipated that the commercial development including other amenities in accordance to local authorities’ requirements for the particular area. The Developer will be expected to coordinate all aspects of designs and construction with PCBD to ensure that the proposed project matches the aspiration of PCBD.
PCBD’s intention is to select a Developer and proposal with the highest quality plan(s) to provide exclusive negotiation period which would enable the parties to undertake proper due diligence and establish a firm development schedule.

This RFP establishes the fundamental requirements for the development on PCBD’s landbank. Respondents are invited to submit their proposed development in accordance with the criteria specified in this RFP document thereby establishing a consistent and formalized basis on which respondents’ proposals may be evaluated.

**Objective**

The Landowner hereby invites companies/ corporation/ consortium registered with Ministry of Finance to participate as the developer partner for the said development and facilities in accordance with this Request for Proposal (RFP).

The Applicant’s proposals for the provision of the development shall be submitted in accordance with the format as set forth with.

**Purpose of the RFP**

Provide applicants with sufficient information to facilitate the preparation and submission of a proposal to provide the development proposal.

Seek certain information from the applicant which will be used in the evaluation process.

This RFP is not an offer to contract, but seeks the submission of proposals from interested respondents that may form the basis for negotiation of Landowner-Developer contract with PCBD.

**Scope of RFP**

Determine the degree of fit of the proposed development offerings to The Landowner, in compliance to other government agencies and local authorities’ requirements.

The designated land parcel has been earmarked as thematic enclave with the concept for residential.

In addition to the above concept, proposer can include other components such as retail complex to complement BMR’s hospitality and tourism themed and integrated new township.

Acquire detailed information of applicants’ company profile, experience, development track record, state of finance, technical capability, design and management teams, marketing and sales strategies.
Acquire estimated costing in relation to the proposed Gross Development Value and Gross Development Cost covering all aspects of the development process and components.

Evaluate the Implementation Plan from Inception to Completion including until Defects Liability Period ends.

Offer of entitlements and their schedule payments to the Landowner. The Landowner shall be entitled for profit sharing from the profit of the Development based on the development’s Gross Development Value (GDV) after deducting the Gross Development Cost (GDC) whereby the percentage is subject to the proposal by the applicant.
